

Poster presentation:

Each poster title should be prepared using sufficiently large fonts but it should not have more than 2 lines. Sub-titles and texts should be large enough so that people will feel easy to read. All poster display spaces will be located in the Lobby area of the AIT Conference Center (AITCC). The display area will be open to set up from 9 a.m. until 6 p.m. from November 26th. All display spaces must be set up by the morning of November 27th.

Presenters will be allocated specific display spaces. To accommodate all posters, the display space will be limited. The dimension for a poster will be **1 m** wide x **2 m** tall. Presenters should keep about 10 cm margin in each side of the panel in order to make easier to see. Overhead projectors and electrical plugs will NOT be available in the poster display spaces. There will be no table or chair, only a poster panel will be provided.

In addition to make posters more attractive, you may display pictures, products (thin), and flyers. These will also help others to understand better the purpose of your work and/or the organization's background. Paper, card, plastic, and laminated materials are the best to use. Posters can hang by foam tapes, thumb pins, staples or self adhesive stickers. We strongly encourage you to bring all your display materials with you.

Please avoid heavy materials as they will be difficult to hang.
